

DAILY PHOTO QUOTA

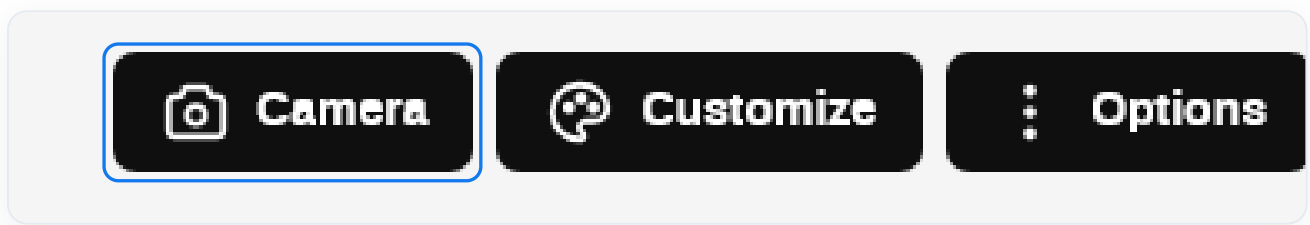

10 photos a day to try your effects

Your free account includes ten watermark-free photos a day with the included effects.

One daily quota per account, shared across all events.

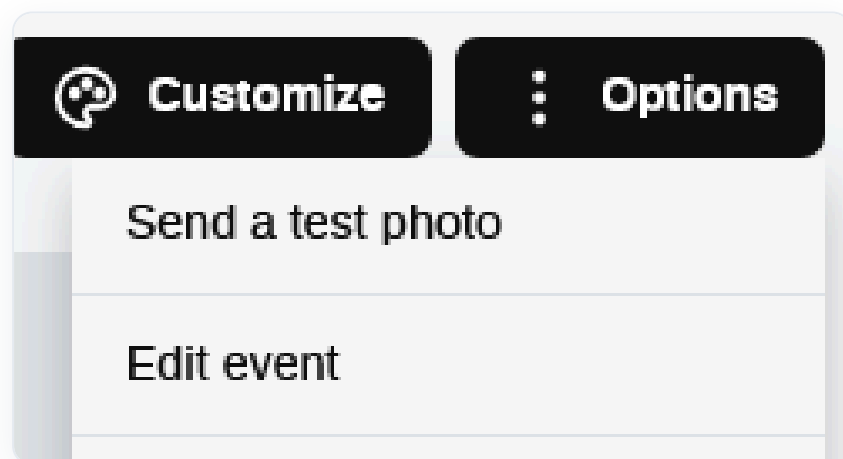

In the booth

Open the event camera and take your photo as usual, just as you would at a live event.

In the dashboard

Open **Options** → **Send a test photo**, then choose an effect and a photo.

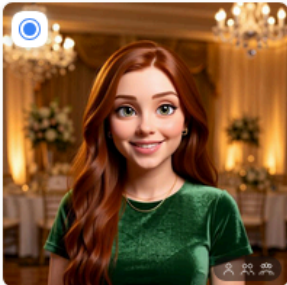

With the included effects, both options use the same daily quota.

TEST FROM THE DASHBOARD

Choose an effect and a photo

 **Send a test photo** ×
See how the effect looks before showing it to the client.

Generate Test →

Sample photos

Choose one of the platform's sample photos and click **Generate Test**. Sample photos do not count toward your daily quota.

Your own photo

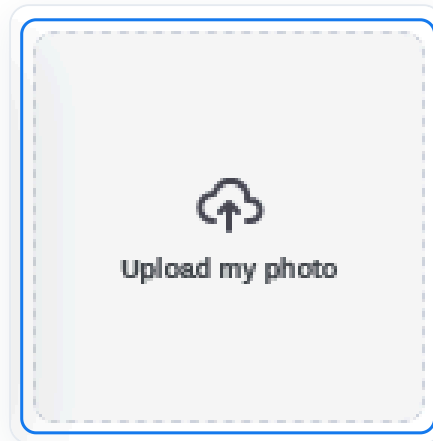

Click **Upload my photo**, select your file, then click **Generate Test**.

With your own photos, included effects and background removal count toward the quota.

YOUR OWN PHOTO

Upload your photo and generate a test

Click **Upload my photo** and select your file.

After uploading, check your photo and click **Generate Test**.

7 remaining today

With your own photos, included effects and background removal count toward your daily quota.

USAGE AND RESET

Track your quota on the event page

Check the “No watermark” indicator. Hover over it to see the details.

No watermark: 4/10 used ⓘ

Watermark-free photos today

4 of 10 used

Your free account includes 10 photos per day without a watermark — in the booth and in test photos, across all events.

Sample photos do not count toward your daily quota. With your own photos, Meta/Muse and background removal count toward this quota. Premium effects with your API key do not use the quota unless you replace the background. With background replacement and no active plan, photos receive a watermark once the quota is used up, even if you paid the provider for generation.

⌚ Resets in ~ 9 h [Unlimited photos →](#)

Hover over the indicator to see the details.

Check the reset countdown

Your quota resets daily. The quota details show how much time is left.

When your quota runs out

Photos that rely on the quota can still be generated, but will receive a watermark.

This daily limit does not apply with an active plan.
